LASER PRINTERS

FOR SMARTER RETAIL

Key challenges in the retail industry today

In today's dynamic retail landscape, businesses face mounting pressure to manage growing volumes of information and paper-intensive processes across complex supply chains while reducing costs, improving efficiency, maintaining competitiveness, and driving customer footfall.

Inefficient Operations

The pressure to improve efficiency in fast-paced environments, where slow turnaround times limit the number of customers served and reduce opportunities to deliver a better customer experience.

Limited Space

Retail environments struggle with limited space and high rental costs, requiring a careful balance between inventory needs and operational efficiency, while adapting to evolving workflows like self-checkout and digitisation.

Security Concerns

Concerns around data security and sensitive data are mounting. The risk of personal data leakage and unauthorised disclosure of sensitive customer and product information can be both damaging and costly.

Sustainability Challenge

Retailers face a critical challenge in balancing productivity, profitability and sustainability. They struggle to reduce energy costs by minimising energy consumption across stores and warehouses without compromising the customer experience.

MEET OUR I-SENSYS LASER RANGE

	 MFP 33	 SFP 33	NEW  MFP 29	 SFP 36
	i-SENSYS MF754Cdw II	**i-SENSYS LBP673Cdw II**	**i-SENSYS MF275dw II**	**i-SENSYS LBP243dw II**

Why Canon i-SENSYS?

Compact Design

Designed with small footprint, the i-SENSYS fits perfectly in small workspaces, from counters to back offices. Wireless connectivity enables seamless printing and scanning from smart devices via Canon PRINT, AirPrint, Mopria, and more.

User-Friendly

Simple plug-and-play setup, with an Application Library that customises routine tasks into one-touch workflows saving you time and effort. The intuitive interface, featuring a tilted panel^ increases operation efficiency for all accessible needs.

Increased Productivity

High-speed printing and scanning accelerate workflows, enabling faster turnaround for receipts, contracts, and daily documents - boosting efficiency and enhancing the customer experience.

More Sustainable

More sustainable with the use of recycled plastic. Low TEC value, low energy consumption. Canon was also recognized by BLI with the Most Energy Efficient Toner-Based A4 Brand Award.

Canon Europe Ltd.
2026-2028 Most Energy Efficient Toner-Based A4 Brand Award

Enhanced Security

Comprehensive security capability delivers end-to-end protection for your data, documents, and network, enhanced with AI recommended settings*. It helps prevent data leaks and keeps sensitive information - like POs, invoices, and payments - secure at every step.

All-in-one toner

Enjoy ultimate convenience with an all-in-one integrated toner cartridge - no need to purchase toner and drum separately. Reduce storage costs, simplify recycling and disposal, and minimise consumable handling to achieve clean and high-quality prints every time.
